| limi                                                                                                  | This is to certify that I have examined the foregoing application, and do hereby grant the same, subject to the following itations and conditions:                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                   |  |  |  |  |
| rig<br>pla<br>rea<br>two<br>mus<br>ins<br>acc<br>met<br>Com<br>Sta<br>use<br>pub<br>sha<br>(CO<br>The | This permit is issued subject to existing rights. It is understood that the bunt of water herein granted is only a temporary allowance and that the final water that obtained under this permit will be dependent upon the amount of water actually used to beneficial use. It is also understood that this right must allow for a sonable lowering of the static water level. This well shall be equipped with a sonable lowering for measuring depth to water. If the well is flowing, a valve to be installed and maintained to prevent waste. A totalizing meter must be stalled and maintained in the discharge pipeline near the point of diversion and curate measurements must be kept of water placed to beneficial use. The totalizing ter must be installed before any use of water begins, or before the Proof of apletion of Work is filed. This source is located within an area designated by the tree Engineer, pursuant to NRS 534.030. The State retains the right to regulate the e of the water herein granted at any and all times.  This permit does not extend the permittee the right of ingress and egress on the object of the combined duty of water under Permits 55641 through 55650, inclusive, all not exceed 5.782 million gallons annually.  NOTINUED ON PAGE 2) amount of water to be appropriated shall be limited to the amount which can be applied to beneficial use, and not to be deed.  1.0 cubic feet per second , but not to exceed 5.782 |  |  |  |  |

CANCELLED JAN 1 2 1995

OF APPLICANT TO COMPLY WITH THE PROVISIONS OF PERMI

Page 2 55647

## (PERMIT TERMS CONTINUED)

This permit is issued under the preferred use provisions of NRS Chapter 534. The manner of use of water under this permit is by nature of its activity a temporary use and any application to change the manner of use granted under this permit will be subject to additional determination and evaluation with respect to the permanent effects on existing rights and the resource within the ground water basin.

The issuance of this permit does not waive the requirements that the permit holder obtain other permits from State, Federal and local agencies.

A monthly report shall be submitted to the State Engineer within 10 days from the end of each month which shall include the amount of water pumped from the well and the amount of water used.
